

# CONTRACTOR ADDS CRUSHER BUCKETS TO EXCAVATOR FLEET

Perth-based earthmoving company GMF Contractors has operated for over 20 years with a staff of 70 full-time workers and 15 subcontractors. It hires plant and machinery to the construction industry for earthmoving, sand supplies, demolition and road construction. It has been involved in several multi-million dollar developments for builders such as Multiplex, Mirvac, Australand, John Holland and Broad, with a portfolio that includes major excavations as well as import and filling of large volumes of soil incorporating shopping centres, apartment blocks, railway subdivisions and car parks.

GMF's inventory includes loaders, trucks and graders, as well as 13 tonne, 20 tonne and 25 tonne excavators. All machines have standard attachments, including a

rock bucket.

Australian Crusher Buckets and Attachments (ACBA) is the Perth-based company selling the MB Crusher bucket in WA and GMF was happy to talk about the new acquisition to its fleet. The MB crusher buckets are suited for the multiple applications GMF specialises in, including demolition, earthmoving, road construction, mines and quarries, and excavation.

There are four variations of the MB crusher bucket: the BF60.1 (for 8 to 14 tonne excavators), BF70.2 (14 to 20 tonnes), BF90.3 (20 to 28 tonnes) and BF120.4 (over 28 tonnes).

GMF recently took delivery of two BF90.3 and BF120.4 crusher buckets from ACBA.

Albert Biagioni, managing director of GMF Contractors, purchased MB's crusher

buckets because the product fit well with the company's profile and value added to its business. "We are happy to assist ACBA with demonstrations and referrals, because it is such a great product," he said.

ACBA has a demonstration area at GMF's Malaga headquarters in which it can demonstrate the BF90.3 bucket attachment at work on a GMF excavator to customers as well as on-site where required.

GMF Contractors have used the buckets in their operations with great success and Mr Biagioni is confident that it will be a great asset to his business.

ACBA is now the dealer for MB Crusher in Western Australia. •
