Technology Pools launches luxurious Spas's

Technology Pools Limited, one of Europe's leading luxury swimming pool design, install and consulting companies, has now launched bespoke concrete tiled luxurious spas in India. These spas are designed to match the main swimming pool but can also be installed on their own where there is no pool. Technology Pools' concrete spas are beautiful, robustly built and extremely energy efficient, plus provide an ultimate way to detoxify and relax at home. It is a great way to energize and get back to the grind without tensions. Because of the ease of maintenance and stress releasing features, the luxurious spas by Technology Pools have become a very popular fixture for homes as well as for corporate houses. In addition to its wide range of services for the swimming pool space, the company also has expertise in custom build showers, saunas and steam rooms. Over the years, Technology Pools have created a niche for itself and has been pioneering many innovations in the swimming pool arena and has been providing innovative offerings to its customers. While opting for a swimming pool, it is very important to hire the services of a professional. And Technology Pools offers the renowned professionals and the best of workers that help in designing the pool as well as guiding and providing details like materials to be used, size and shape, maintenance, swimming pool safety, etc.

MB S.p.A presented new version of bucket crusher at the Paris trade fair

MB S.p.A., a Vicenza company and worldwide leader in the production and sales of bucket crushers, was at the Intermat trade fair in Paris in April to present its latest product, a new bucket crusher, the result of ongoing investments in technological research and the continuous attention to its customers' needs. The historical model has been transformed to offer an even more revolutionary product on the market, thanks to the in-depth research of the MB team and technical engineers. The company is committed to the constant satisfaction of customers' requirements, ever attentive to their needs,

carefully listening to all problems faced every day on construction sites, finding solutions most suited to the various international situations in which MB S.p.A. operates. The new version of the bucket crusher is in fact more resistant in work, featuring a more compact size and improved structural layout to facilitate operator manoeuvres on the excavator. Despite the world crisis affecting all sectors, MB confirms its success and keeps on investing in research and development, giving priority to vertical specialisation in the production of a single product that enables the guarantee of high quality and top performing bucket crushers. MB S.p.A. ensures that the company achieves the maximum levels of quality and satisfaction.

The Great Eastern Home unveils its collection of Contemporary Rosewood Sofas

The Great Eastern Home unveils its exclusive collection of rosewood sofas that would give living space a stylish and ingenious finish. Sofas express the sense of aesthetics coupled with comfort and luxury and are extensively used for relaxation in leisurely hours. Rosewood is considered to be the queen of all wood. It is heavy, hard and is noted for its stability and resistance to decay. Its dark reddish brown colour gives it a royal and sophisticated appearance against the backdrop of the light coloured walls. The exclusive range of The Rosewood Sofas is elegant in design and finish. The limited edition sets are hand crafted with top quality wood and rattan, with a high gloss polish. Expertise, perfection and painstaking craftsmanship is what makes this collection exclusive and different from the rest. The sofas reflects meticulous and artistic craftsmanship, and sets an enduring standard for comfort and elegance. An intuitive sense of style built through generations of art collecting, along with knowledge, expertise, and attention to detail in planning and implementation, has led Company to create and distribute masterpieces which never go out of style. The overwhelming success of The Great Eastern Home has lured them to conceptualize an expansion plan to other cities of India like Delhi and Bangalore as well as in Riyadh, Moscow, London, Tokyo and Paris.
